RESORT STATISTICS

Average Days of Sunshine	255	Uphill Capacity	19,200 skiers/hour
Average Length of Season	November to April	Longest Run	2.5mi/AK
Skiable Acres/Hectares	2,300/930	Terrain	15% Beginner 50% Intermediate 20% Advanced 15% Expert
Designated Trails	65+	Vertical Rise	2,100ft/640m
Base Elevation	7,776ft/2,370m	Top Elevation	9,800ft/2,997m
Lifts (1/5 Total)	2 high-speed quads 1 quad, 6 triplets, 1 double, 6 surface	Snowmaking	4 lifts, top to bottom Yan to Aprn
		Hours of Operation	Yan to Aprn

WHICH LIFTS ARE RIGHT FOR YOU?

- If you're looking for "Green" or beginner terrain, your ideal slopes are on chairs 1, 9 and 7.
- ◆ "Blue" or intermediate terrain skiers/skiers will come to know and love chairs 2, 3, 4, 5, 7 and 11.
- ◆ For "Black Diamond" or expert skiers, your fits are 4, 6, 11, 14 and 15.
- ◆ For some of the greatest, most challenging "Double Diamond" terrain anywhere, try lifts 4, 6 and 10.

TERRAIN / TRAIL SYMBOLS

Terrain symbols describe only the general degree of challenge of trails within this ski area. Trail markings do not apply to terrain features or other hazards that may exist on a trail. Trail symbols indicate the relative difficulty of the trail compared to other trails at Kirkwood. Trails at Kirkwood may be steeper and/or require more advanced skills than trails with the same markings at other ski areas. You are the sole judge of your ability to proceed on any trail or use any terrain feature.

GUIDELINES FOR TERRAIN FEATURE USE

- WARNING:** Trail ratings do not apply to terrain features.
- Terrain features are not rated.
- You are the sole judge of your ability to use any terrain feature.
- Prevent terrain features before use.
- Always use spotters.
- Ski/sports are dangerous; you assume all risks of injury or death.

SKI AREA AND AVALANCHE CONTROL BOUNDARIES

Kirkwood is a unique mountain with over 2 miles of ridge line where cornice forms. After snowfall or windy conditions an avalanche hazard may develop. Please be aware that avalanche hazards not only exist in avalanche starting zones but also on most of the intermediate and beginner trails below where on high hazard deep long running avalanches may cross the lower trails. Access to terrain outside of the ski area boundary is not always allowed. Please refer to the large yellow signs at ski area boundary access points and at the bottom of chair lifts to determine the status of ski area boundary access. Several sections within the ski area may be closed, to often reopen when the hazard is minimized by avalanche control procedures.

YOUR RESPONSIBILITY CODE

1. Always stay in control.
 2. People ahead of you have the right of way.
 3. Stop in a safe place for you and others.
 4. Whenever starting downhill or merging, look uphill and yield.
 5. Use devices to help prevent runaway equipment.
 6. Observe signs and warnings, and keep off closed trails.
 7. Know how to use the lifts safely.
- Be safety conscious and responsible. This is a partial list.

In partnership with El Dorado National Forest. Providing exceptional recreational opportunities with responsibility to the environment.
