SAFETY INFORMATION

In case of an accident or if you get lost Call 911

EXTREME FIRE DANGER
Reminder from Smokey Bear:
Smoking is prohibited on lifts and is only allowed in designated smoking areas. Report fires immediately via cell or on-mountain emergency phones.

SUN PROTECTION
With every 3,000’ increase in altitude, UV levels rise by 10% -12%. We recommend Supergoop! Broad Spectrum suncare products to ensure protection from UV rays.

AERIAL DRONES
Aerial drone use by any guest or member of the public, for any reason, is not permitted on or over any Vail Resorts property.

LIGHTNING AND THUNDERSTORMS
Afternoon thunderstorms are common in the mountains. Take proper precautions when you see or hear a storm developing: Seek shelter, keep off ridgelines, and stay clear of chairlift houses, lift towers, power lines, open spaces, lone trees and signposts. Lifts may close on occasion, causing delays.

HIGH-ALTITUDE ENVIRONMENT
If you live at a lower elevation, you may tire more easily. Take it easy at first, plan short trips until you are acclimated and drink plenty of water. Some visitors may experience symptoms associated with Kirkwood’s high altitude. Symptoms may include headaches, nausea, and dizziness, loss of appetite, restless sleep, coughing and difficulty in breathing. If symptoms persist or if you have a concern about your health, you should seek medical attention.

ADEQUATE CLOTHING
Be aware, mountain weather changes quickly and there is usually at least a 10 degree temperature difference from the bottom to the top of the mountains. Bring a raincoat and consider a sweater or fleece.

WEATHER AND TERRAIN
YOU ASSUME THE RISK of unpredictable weather, as well as rugged, uneven, irregular and slippery conditions.

TRAILS
Be aware that trails and roads on Kirkwood Mountain are used for many purposes during the summer. Mountain bikes, hikers, horses, motorized vehicles, construction equipment and others may be encountered at any time.

CONSTRUCTION WARNING
You may encounter construction equipment, maintenance vehicles or other heavy machinery at any time. Always be cautious and obey posted signs and warnings.

MOUNTAIN BIKING
Helmets are mandatory and sturdy shoes with good tread are recommended at all times. Child carriers or tow-behind bikes are not permitted and all bikes must have two working brakes. All loose clothing, bags or packs should be firmly secured so they do not interfere with the bicycle’s moving parts.

Mountain bikers must always yield to other non-motorized trail users. Should you encounter hikers or horses on any trail, you must yield the right-of-way. Ride on designated trails only and obey all posted signs and warnings.

WILDLIFE
Do not litter or feed wildlife. Hikers rarely encounter bears but, if you do, please remain calm and back away slowly. Kirkwood asks that everyone is cautious and respectful of wildlife.

These are partial lists only. Hike and bike with care.

KIRKWOOD

At the Kirkwood Mountain Park you can choose from a network of trails leading through spectacular terrain with mountain views. The best way to access the trail network is to pedal up the access roads to the top of the trail system. Snowkirk, Caples Crest and Funny Bunny service roads will access all of our single track.

Kirkwood is home to world-class hiking and trails that access spectacular terrain that will leave hikers amazed with the breathtaking views and an abundance of wildflowers.

A grid of logos for various sponsors. The logos are arranged in four rows and three columns. The first row contains GMC, Verizon, and American Express.
